

——金隆铜业公司精炼车间行车工日常工作扫描

A close-up photograph of a male worker wearing a red hard hat with a yellow logo, safety glasses, and a red and grey safety vest over a light blue long-sleeved shirt. He is wearing work gloves and is focused on a task. He is using a long, thin metal rod or tool to work on a large, light-colored, curved industrial component, possibly a fan blade or part of a pump. The background shows more of the industrial machinery and a concrete wall.
